Dear valued Vaisala customer,

As the fundamental understanding of lightning and the technological landscape continues to expand worldwide, it is time to renew our lightning display software platform for an even better customer experience. Vaisala LTS2005 Lightning Tracking Software has been part of our lightning offering for approximately 15 years, and production will be discontinued to make way for the most innovative solutions on the market.

We apologize for any inconvenience this may cause you or your organization. New orders for LTS2005 will be acknowledged until December 31, 2021. The following items are impacted by this discontinuation:

LTS01	LTS2005 Software on USB & DVD
LTS02	LTS-Ascii Option
LTS03	LTS-Auto Image Save
LTS04	Replacement License
LTS05	Demo Copy of LTS01
LTS06	Upgrade Demo to LTS01
LTS07	LTS01 Upgrade on DVD and USB
MAPMR-TAB	Custom Map Medium Resolution
MAPHR-TAB	Custom Map High Resolution
CMD50-TAB	Full Resolution Map

Remaining new orders that have been placed before December 31, 2021 will be accommodated by July 1, 2022 the latest.

Spare parts, replacement software, and license renewals will continue to be available through December 31, 2023, with an additional year provided for technical support. Exceptions will only be accommodated for individuals with existing service contracts extending beyond December 31, 2024. The attached Technical Reference (DOC235914) provides additional details for associated and supported OS/hardware components.

Looking ahead, Vaisala will continue to focus on bringing innovative solutions to our customers subscribing to NLDN/GLD360 data, as well as our precision lightning network customers. For more information, please visit https://www.vaisala.com/en/lp/vaisala-lightning-tracking-software-lts2005-discontinued.

On behalf of Vaisala,

Phillip Falgoust, Product Manager, Weather Systems
